

Schedule of Classified Roads and Unclassified Regional Roads

Transport
for NSW

Changes to this document are captured in 'Recently Gazetted Changes':

<https://roads-waterways.transport.nsw.gov.au/business-industry/partners-suppliers/lgr/arrangements-councils/road-classification.html>

Summary

Transport for NSW (Transport) is required under section 163 of the *Roads Act 1993* to keep a record of all classified roads. To satisfy this commitment, this document is a record of the roads classified under sections 46, 47, 50 or 51 of the *Roads Act 1993* that are declared as a Highway, Main Road, Secondary Road or Tourist Road - as described by Declaration Order in the Government Gazette.

To manage the extensive network of roads for which local councils are responsible under the *Roads Act 1993*, Transport - in partnership with local government - established an administrative framework of *State, Regional, and Local Road* categories. The administration and management of State Roads is carried out and financed by Transport, and Regional and Local Roads are administered, managed and financed by local councils.

Regional Roads perform an intermediate function between the main arterial network of State Roads and council controlled Local Roads. Due to their network significance Transport provides financial assistance to councils for the management of Regional Roads. The Regional Road category comprises two sub- categories: Regional Roads that have been classified under the *Roads Act 1993*, and those Regional Roads that are unclassified. For completeness, the Schedule also includes unclassified Regional Roads.

Local Roads are unclassified roads and therefore are not included in the Schedule.

The recently introduced alpha-numeric route numbering (MAB) system used for wayfinding purposes in NSW does not directly relate to the classification of roads and has not been incorporated into this Schedule.

The Schedule sets out the administrative class (either State or Regional Road) for classified roads. Where a classified road comprises sections of State Road and Regional Road, a description of each section is shown.

Note: The declaration of roads as a Freeway, Controlled Access Road, Tollway or Transitway under sections 48, 49 or 52 of the *Roads Act 1993*, is usually by reference to cadastral information. These roads are not included in this Schedule. The list below contains only a general description of Freeways, Tollways and Transitways, not the declared description of roads in these classes. Note that sections of Highways and Main Roads may have a dual classification as Freeway or Controlled Access Road.

Key to Numbering System in this Schedule

Classified Roads (pursuant to Road Act 1993)		Unclassified Roads (pursuant to Administrative Agreement)	
Road Number	Class	Road Number	Class
1-31	Highway (HW) (Previously State Highway (SH))	7000 series	Unclassified Regional Roads
51-694	Main Road (MR)		
2001-2114	Secondary Road (SR)		
4000-4056	Tourist Road (TO)		
8001-8011	Transitway (TW)		

Gazetted Road Number	Gazetted Name and Description	Administrative Category	Most recent Gazetteal (Government Gazette Number and date)
